

## ARIZONA DOWNS

---

### Race #1

4-6-1 #4 Already Been Warned 3-1 ML is The "Other" Fines trained charge looks well meant at first asking especially when considering he also has the morning line favorite in here as well. Jock already has a win for this barn and is one to key on in QH races.

### Race #2

9-3-1 #9 Stone Creek 6-1 ML is one to consider if able to draw into the field. Love the improved speed show in last and now can press and finish in this abbreviated distance sprint.

### Race #3

3-6-1 #3 Buddy Niner 7-2 ML Like the improvement shown in now three straight and comes off best race of career. Sure seems like blinkers have helped and tab as action play right back off maiden win.

### Race #4

6-4-5 #6 Seven points 5-1 ML has been working like clockwork locally to make first start since Mid-April and this son of a route sire and route dam could love 1M off the freshening.

### Race #5

5-4-6 #5 Sweet Ryan 4-1 ML now has a race over the track and could move forward in a big way. Finally off the rail and look how live that last race was as runner up came back and romped, then ran to a photo against much better.

### Race #6

4-3-1 #4 Yha Yha 4-1 ML was unlucky last time when running into a buzzsaw winner and also encountering traffic trouble. Clean trip and gets the money here from just off the pace.

### Race #7

3-4-6 #3 Disputed need only replicate that last effort to be a factor here. Low odds assured but obvious contender in less than stellar field.

### Race #8

3-5-1 #3 Ramblin' Man 8- ML could surprise here off latest when just kind of ran around the track but has shown in the past he can contend with these, jock switch, better price and could upset at a big mutuel payoff.

### Race #9

3-7-6 #3 Unconscious Power 10-1 ML sure woke up in a big way last time and is realistically spotted first time against winners. Journeyman jock takes over and on or near the early lead is where you will find this one early in the nightcap.
