

ARIZONA DOWNS

Race #1
6-5-4 #6 Express Permission 2-5 ML Has been improving in each start and now finds a field that should be to his liking. Stands out on paper but at this level a low price is assured and hardly value.
Race #2
4-5-1 #4 Call Waiting 2-1 ML should be part of a formful start to the racecard. Speed to use early and drop in class it all looks right but again we may be looking another short price on the tote board.
Race #3
3-5-6 #3 Miss Shawan 10-1 ML has been in over her head in the last few starts and the drop makes sense. Could wake up here and at generous odds which is always what we look for when handicapping.
Race #4
2-1-3 #2 Albany Front 5-2 ML should show some speed and also can rate so versatility here is key. Love the win last out when adding blinkers and that equipment change could be worth taking him for a back to back score.
Race #5
4-6-1 #4 Please Do Tell 6-1 ML has now paired up back to back numbers which sometimes is a sign of improvement coming in this start. Drop in class, jockey change and should be a factor against these.
Race #6
7-5-1 #7 Jazz Town 12-1 ML takes the blinkers off and with that last start at this tark under his belt should be better set for this run. Another on the card that faces easier than what he saw in last in race that fell apart up top and came back to a closer.
Race #7
2-6-1 #2 Burredabt 3-1 ML needed last and takes a massive drop but still in allowance condition. Vergara climbs on and this should be an all systems go type of run.
Race #8
8-1-6 #8 Lieutenant Margie 20-1 ML has some things to like first of all the price and second the pattern of racing back into shape after a layoff. Back numbers look like they match up well and this could be a get horse in the get out race at a get out price.
