

**Race #1**

1-3-4 #1 Cant Catch Aubrey 9-2 ML has some improved gate works locally and looks well meant at first asking. A clean start from this inside post is a must.

**Race #2**

2-8-10 #2 Fearlously Ivory 20-1 ML ran much better than looked in troubled debut and can improve with that start under her belt. A move forward is a must but at this price not out of the question to blowup the tote board.

**Race #3**

6-4-1 #6 Major Daylight has some good and bad news. The good is the debut romp by more than 8 lengths and the versatility show when rating off the pace. The bad news is off that big win now he is offered up for \$8K after not being eligible for a claim in first start.

**Race #4**

4-1-2 #4 Palace Star 15-1 ML ran like a horse that needed that last start and clearly regressed off the first three in her career. Look here to bounce back at a big number and notice not only how tough that last race came up, but the drop in class here to claimers.

**Race #5**

4-7-1 #4 Fabulous Floyd 4-1 ML was unlucky in local debut last out when a beaten favorite and out the top three across the wire. Should like this field much better and need only work out a clean trip in order to factor.

**Race #6**

1-4-3 #1 Disputed 7-2 ML gets the old two sprints and a stretchout to a mile move making third start off layoff. Capable going this far, cozy inside draw and should factor from the bell.

**Race #7**

6-3-5 #6 It's Five Somewhere 10-1 ML, and you can say that again, drinks on the house if this one gets home at a good number on the board. Trainer has been on fire and note the barn change before last start which was much improved, should be coming from off the pace late.

**Race #8**

8-7-6 #8 Just Grace 10-1 ML had an even run over this track last time when well bet and now goes inside to outside for post position which is a positive. Back numbers match up well and expecting a better effort than last time here at a much better price.

**Race #9**

2-4-6 #2 Victory Lane 4-1 ML has not won in some time but could prove a timely claim for a barn that wins at a high % year in and year out. Need only repeat last, but upside is there.
